CAREER IN LITIGATION

Thomas Philip recognizes the value that legal education is an ethical and professional duty as well as a corporate and social responsibility. Not all learning takes place in a classroom. Book learning is intensified with on-the-job training. We are firm believers that mentoring is the option in fulfilling this duty of education.

We have devised a Mentoring Program to groom candidates from the academic outfit as paralegals to facilitate their path in becoming a litigator that is equipped with all the tools they need when they commence their practice in law. The candidates will benefit from the diversities of practice in this firm and its knowledge of the various industries of its clients as well as our information sharing culture.

SEVEN steps to a successful litigation career in Thomas Philip
